

Gogo AVANCE L3

Productive, flexible, affordable Gogo Biz connectivity

Gogo AVANCE L3 taps into the proven Gogo Biz network, and lets you stay seamlessly connected to your professional and personal life during flight. No matter your aircraft size, you can now give everyone on board powerful inflight internet and entertainment that works everywhere you go. All from a single, affordable, lightweight, customizable solution.

FEATURES

Reliable, high-performance Gogo Biz inflight internet

- Enables email, web browsing, corporate VPN access, texting, and voice calls*
- Seamless coverage in the contiguous U.S., plus portions of Canada and Alaska
- Two service levels to choose from, depending on connectivity needs and device requirements

Smart router optimizes the in-cabin experience

- Advanced 802.11ac dual-band router (5GHz & 2.4GHz) maximizes bandwidth and optimizes in-cabin Wi-Fi performance
- Dynamic, multi-bearer data and voice management

Terrestrial modem

- Complimentary ground connectivity in 200+ countries

Gogo Vision inflight maps, entertainment and information

- Gogo 3D moving map
- Destination weather
- Unlimited licensed movies and TV (subscription required)
- eMagazines (subscription required)
- News clips (subscription required)
- Multi-language audio tracks
- Automatic content updates

Gogo Skyline for in-cabin communications (voice plan required)

- Reliably make calls using your own phone and contacts in the air, and via any Gogo network
- Serves as a handset for Iridium satellite calls, Gogo Voice over ATG calls, or calls within the cabin

Path to Gogo Galileo - Global LEO broadband connectivity

- Full global satellite coverage, including polar regions and over oceans
- Low latency

- Greater speed and capacity
- Streamlined installation: AVANCE L3 can power Gogo Galileo via an easy addition of the antenna terminal
- 1 AVANCE L3 system + 1 antenna (HDX or FDX) = Global coverage

Award-winning service and support

- Use AVANCE over-the-air (OTA) functionality to remotely update your AVANCE system software, manage your MIX configuration, monitor the health of your LRU, and update your IFE content
- Gogo DASH tools provide visibility into the health of Gogo systems and control to customize your connectivity experience
- 24/7/365 monitoring, global support, and remote service activations

SPECIFICATIONS

Aviation grade

- Built to DO-178C Design Assurance Level D
- Installs inside or outside the pressure vessel

Dimensions and weight

- MCU size: 3MCU
- LRU dimensions: 3.97" W x 7.64" H x 12.57" D
- LRU with mounting tray dimensions: 4.18" W x 8.38" H x 16.24" D
- LRU weight with mounting tray: 12.0 LBS
- Mounting tray weight (with fan): 3.0 LBS
- Two (2) omni-directional antennas
- Externally mounts in forward and rear positions to the fuselage
- Antenna dimensions (per antenna): 5.9" L x 4.2" W x 6.5" H
- Antenna weight: 2.5 LBS

Electrical characteristics

- Voltage range: 20.5 VDC to 32.2 VDC
- Maximum power: 115 W @ 20.5 V input with heaters on

*Streaming required? Consider the Gogo AVANCE L5 system, which connects to the Gogo Biz 4G network.

Multi-aircraft discounts available

* System price does not include installation. Contact a Gogo authorized Dealer for installation cost.

** If streaming is required, consider the Gogo AVANCE L5 system, which connects to the Gogo Biz 4G network.

***5-hour monthly minimum applies. Customers may roll over up to 5 hours per month up to a maximum of 15 hours. Rollover hours must be used within 12 months from when they are banked. Hourly rate includes both voice and data service. No additional discounts apply. If you're considering an hourly plan for connectivity service, please be aware that any device connecting to the internet via the cabin Wi-Fi network triggers the \$105 hourly charge, even if minimal data is passed. Billed in 15-minute increments after the 1st hour per flight.

**** Exclusions and limitations apply. Contact Gogo Business Aviation Sales for details. Terms: 12-month term; price is per aircraft; prepay required; overages are billed monthly per aircraft; rollover of unused MBs is allowed from month-to-month but expire at end of the agreement term; may purchase additional buckets at any time.
