

Gogo AVANCE L5

Fully integrated, flexible Gogo Biz 4G experience

The Gogo AVANCE L5 system is the powerhouse that drives your entire Gogo 4G experience. Now, you can personalize, control and deliver a fully integrated inflight experience that makes connectivity easier and more powerful for everyone—passengers, pilots and crew—to use.

So get on board with Gogo AVANCE L5 and unleash the performance you need, on the network you trust, from the partner you count on.

FEATURES

Fast inflight internet - supports streaming

- Streaming video and audio, VPN support, web browsing, email with large attachments and more
- Dual-directional antennas (standard), or Gogo 5G provision configuration (optional) with multi-band (MB13) antennas
- Seamless coverage in the contiguous U.S., plus parts of Canada and Alaska

Smart router for an integrated, automated cabin experience

- Advanced 802.11ac dual-band router (5GHz & 2.4GHz) maximizes bandwidth and optimizes in-cabin Wi-Fi performance
- Dynamic, multi-bearer data and voice management

Terrestrial modem

- Complimentary ground connectivity in 200+ countries

Gogo Vision inflight maps, entertainment and information

- Gogo 3D moving map
- Destination weather
- Unlimited licensed movies and TV (subscription required)
- eMagazines (subscription required)
- News clips (subscription required)
- Multi-language audio tracks
- Automatic content updates

Gogo Skyline for in-cabin communications (voice plan required)

- Reliably make calls using your own phone and contacts in the air, and via any Gogo network
- Serves as a handset for Iridium satellite calls, Gogo Voice over ATG calls, or calls within the cabin

Path to Gogo Galileo - Global LEO broadband connectivity

- Full global satellite coverage, including polar regions and over oceans
- Low latency
- Greater speed and capacity

- Streamlined installation: AVANCE L5 can power Gogo Galileo via an easy addition of the antenna terminal
- 1 AVANCE L5 system + 1 antenna (HDX or FDX) = Global coverage

Award-winning service and support

- Use AVANCE over-the-air (OTA) functionality to remotely update your AVANCE system software, manage your MIX configuration, monitor the health of your LRU, and update your IFE content
- Gogo DASH tools provide visibility into the health of Gogo systems and control to customize your connectivity experience
- 24/7/365 monitoring, global support, and remote service activations

SPECIFICATIONS

Aviation grade

- Built to DO-178C Design Assurance Level D
- Installs inside or outside the pressure vessel

Dimensions and weight

- MCU size: 5MCU
- LRU dimensions: 6.34" W x 7.64" H x 13.24" D
- LRU with mounting tray dimensions: 6.55" W x 9.99" H x 16.62" D
- LRU weight: 18.0 LBS
- Mounting tray weight (with fan): 4.2 LBS
- Two (2) dual-directional (DDA) antennas OR Two (2) multi-band (MB13) antennas
 - DDA Antenna dimensions: 6.2" W x 12.6" L x 7.6" H (per antenna)
 - DDA Antenna weight: 4.0 LBS MAX (per antenna)
 - MB13 Antenna dimensions: 4.52" W x 15.07" L x 7.79" H (per antenna)
 - MB13 Antenna weight: 6.0 LBS (per antenna)

Electrical characteristics

- Voltage range: 20.5VDC to 32.2VDC
- Maximum power: 192W at 20.5V input with heaters on
